

Lösungen zu Reaktionsarten der organischen Chemie

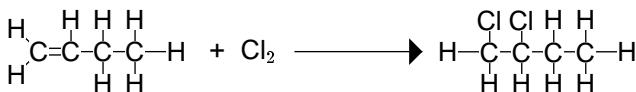

Aufgaben

1.

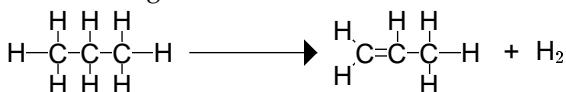

(a) Substitution:

(b) Addition:

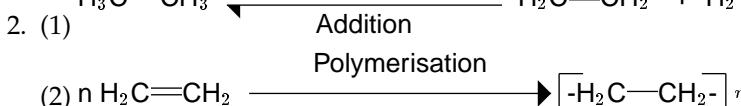

(c) Eliminierung:

Eliminierung

Addition

Polymerisation

Eliminierung

Addition

Eliminierung

Addition

Substitution

Addition

Addition

Addition

Substitution

Redoxreaktion

Redoxreaktion

Substitution(Veresterung)

Substitution	Addition	Eliminierung
Kondensation	Hydrierung	Dehydrierung
Veresterung	Polymerisation	Dehydratisierung
Polykondensation	Halogenierung	
Hydrolyse	Hydratisierung	

Reaktionsgleichungen zu den Versuchen
